

# I'll Try

Beres Hammond

It's not been good  
These last few weeks, no  
Oh, something gotta change this month  
I guess I'll try  
One more time  
Gave it everything  
Everything  
Learned to love you  
As before  
Throw suspicions  
Out the door

My favorite moments  
Are the ones I share with you  
Loving you, hugging you, and kissing you  
You gave your jolts when no one but me had a clue  
And so I know  
My favorite person is still you

I guess I'll try it  
One more time  
Give it everything that I can  
Learn to love you  
As before  
Throw suspicions  
Out the door

Hey  
No jealousy rains and  
When it comes, it stains  
Takes you over like cancer  
Then my action has no answer  
When you share that smile  
That I thought was only mine  
With some other guy  
My anger just reach the sky  
Oh oh oh, oh gosh yes yes

Jealousy took over  
Oh yeah  
Took over me, yeah ay  
You're not such a bad woman at all, no

I guess I'll try it  
One more time  
Give it everything  
That I can  
Learn to love you  
As before  
Throw suspicions  
Out the door

My favorite moments  
Are the ones I shared with you  
Babe  
Loving you, hugging you, and kissing you  
You gave your jolts when no one else had a clue

And so I know  
My favorite person is still you

Guess I'll try it  
One more time  
Give it everything that I can  
Learned to love you  
As before  
Throw suspicions  
Out the door

Guess I'll try it  
One more time  
Give it everything that I can  
Learned to love you  
As before  
Throw suspicions  
Out the door
