

# Love From A Distance

Beres Hammond

I see love from a distance  
Coming but slowly  
I know it's gonna last forever  
I feel us coming closer, closer and closer  
It's the time we get together

I know you done a lot of wrongs  
But I'm willing to forgive  
No one has the right to decide  
How the other man should live  
Sometimes we should stop and count to ten  
Before we make each other hurt  
'Cause later on you realize  
It really had no worth

Mama she's taught us for so long  
With the right, the fool we teach  
And the wisdom in her eyes  
Kept me safe through all the years  
Made me grow to understand  
That there's still good folks around  
And to keep this in your hearts  
Just to be on solid ground
