

Peelin' out in HD  
Except my channel don't change  
Park by the road, spark out the grove

Said that I would never leave  
Faded underneath the willow tree  
Wind hit the smoke, watch as it goes

Livin' in that 80s song, that song that lady sing  
"I'm only one, but not alone"  
Drift down the interstate  
I'm running til I get away

Livin' in that 80s song, that song that lady sing  
"I'm only one, but not alone"  
Drift down the interstate  
I'm running til I get away

Peelin' out in HD  
Except my channel don't change  
Lost in a daze, peek out the gates

Bump until my speakers blown  
Tryna live this life I've never known  
Sun hit the bay, hum as I sway

Livin' in that 80s song, that song that lady sing  
"I'm only one, but not alone"  
Drift down the interstate  
I'm running til I get away  
Watch me as I go to waste

Livin' in that 80s song, that song that lady sing  
"I'm only one, but not alone"  
Drift down the interstate  
I'm running til I get away  
Watch me as I go to waste
