

Anansi

Berhana

Knew that it was somethin' when I tried to up and run
But couldn't let it go
Thought you wasn't ready but it's getting hot and heavy
And we all alone

Runnin' through the night – high
Hard to get you out my mind
I don't know what you want
But I'mma find it out
Just a touch, I'm up – high
Hard to get you off my mind
I don't know what you like
But I'll find it out

Time
I watch it tickin' down, down, down
Every night
I wanna lay it down, down, down down

Shake it up, shake it up
What it's gon' be just depending on us
I don't wanna lie, that's the thing about trust
Nothin' like your past
Girl them niggas so dust, dust, dust
What it's gon' be just depending on us
Hard to hold back, that's the thing about lust
90 on the dash and a nigga don't rush, rush rush

Here we go-
Down, Down, Down
