

Hello, ladies and gentlemen. On behalf of our captain and entire crew, welcome aboard HAN, project 002.

Our trip will round out to 33 MINUTES and 33 SECONDS. Once the album is in progress, we ask that you fasten your headphones. Do this by placing the foam fittings over each ear, one at a time. Tighten until you feel the bass has reached maximum slap.

We suggest you take a moment to clear your thoughts in preparation for our journey. Thank you for choosing HAN.
