

Like A Habit

Berhana

You tried to break me like a habit
Now with the damages, I can't tell the truth
You moving crazy, so erratic
Wasting my time
Oh, hard to say

I, I put you in the bonus
Don't understand your manners
Ran a couple bands up
I showed you how to get yours
I took you from your mama's
Took you out your mama
Egyptian silks around ya

You tried to break me like a habit
Now with the damages, I can't tell the truth
You moving crazy, so erratic
Wasting my time
Oh, hard to say

Moving closer again
Are we better as friends?
Kingdoms built in a day
Always crumbling
Moving closer again
Are we better as friends?
Kingdoms fall from within

Brief disadvantage
Too hard to manage
Bring up the past? Girl, too far
Smoke on the mattress
Chaos and ashes
Fatal Attract, we Glenn Close
Hangs in the balance
Question your antics
We gonna last? Girl, who knows
Stuck in a storm like Seattle
Two shattered hearts, that's too fragile

You tried to break me like a habit
Now with the damages, I can't tell the truth
No, erratic
You wastin' my time
You wastin' my time
Quit wastin' my time

If I stay again, I might just wanna leave (Wanna leave)
If I stay again, I might just fall in love (Fall in love)
If I stay again, I might just wanna leave (Wanna leave)
If I stay again, I might just fall in love (Fall in love)
If I stay again, I might just wanna leave
If I stay again, I might just fall in love (Fall in love)
If I stay again, I might just wanna leave (Wanna leave)
If I stay again
If I stay again
