

# Don't Make Me Regret It

Berlin

Oh I can't push you away now  
You already have my trust

And I don't even know how  
I've already given you so much

Oh it's so easy to figure out  
My love is an open book  
Is it easy  
Is it easy to be you

If only  
We could  
If only...

You put your name on my skin  
Don't make me regret I let you in  
You play your game with your secret sin  
But I can't forget I'll never win

You put your name on my skin  
Don't make me regret I let you in

You play your game with your secret sin  
Don't make me regret  
Don't make me regret it

And I'm scared that there's no way out  
You already have my trust  
So don't throw my heart around  
When there's no one left to pick it up

And it's easy to figure out  
My love is in your arms  
And it's not easy  
And it's not easy to be me  
Now

If only  
We could  
If only  
We could...

You put your name on my skin  
Don't make me regret I let you in  
You play your game with your secret sin  
But I can't forget I'll never win

You put your name on my skin  
Don't make me regret I let you in

You play your game with your secret sin  
Don't make me regret  
Don't make me regret it

And I won't let us go  
Until you do, until you do

Cause you're a stain on my skin  
Don't make me regret  
Don't make me regret it
