

# With the Lights On

Berlin

With the lights on  
With the right song maybe  
You could get a little lucky tonight  
With the lights on  
Til the sun's up baby  
Let me see you let me bring you to life

In the spotlight  
When the mood's right baby  
And you're looking me deep in the eyes  
With the lights on  
Take it all off baby  
And I want to see you do it tonight

I love your skin  
I love your bones  
And when you move  
You move for me alone

I love your hands to take control  
Make me feel like I can fall

I want your skin  
I want your soul  
And when you move  
You move for me alone

I love your hands to take control  
Make me feel like I can fall in love

With the lights on  
Going down there baby now  
I'm wanting to kneel at your feet  
With the lights on  
True religion taking me  
I want to see your everything

I like it when you're topless  
I'm a hot mess baby  
When you do the slow reveal I like  
With the lights on  
Take it all off baby  
Cause I know you'll show me something I like

I love your skin  
I love your bones  
And when you move  
You move for me alone

I love your hands to take control  
Make me feel like I can fall

I want your skin  
I want your soul  
And when you move  
You move for me alone

I love your hands to take control  
Make me feel like I can fall in love
