

# Time Heals Everything

Bernadette Peters

Time heals everything  
Tuesday, Thursday  
Time heals everything  
April, August

If I'm patient the break will mend  
And one fine morning the hurt will end

So make the moments fly  
Autumn, winter  
I'll forget you by  
Next year, some year

Though it's hell that I'm going through  
Some Tuesday, Thursday, April, August  
Autumn, winter, next year, some year  
Time heals everything, time heals everything  
But loving you

Though it's hell that I'm going through  
Some Tuesday, Thursday, April, August  
Autumn, winter, next year, some year  
Time heals everything, time heals everything  
But loving you
