That's alot of weed, that's a whole lotta weed man  
We gonna smoke all that? We gonna smoke all that?  
Come on man, let's smoke man, let's smoke man

Wrap the snake around a king size J  
Wax drippin' on my jeans  
My team stay paid  
Miami for a week  
After Saint-Tropez  
Ridin' through fillin' orders  
At the Mandolay  
And the fast lanes fun until you crash  
When we purge we don't kill nah  
We just kill hash and we take dabs  
Rubber band wrap, hundred grand stacks  
Still I throw it in a Safeway bag  
I'm old school really, few suckas wanna kill me, why?  
I just wanna live for my kids, and enjoy my high  
Cookies crossback to that cherry pie  
Grow room full of babies flowers 12 hour light  
12 hour flight, I'm overseas  
I'm in London rollin' cheese partyin' with freaks  
Cold drinks and no sleep for a couple weeks  
I play with the powder 'fore I touch the peak

Yeah, yeah, get high  
Yeah just roll it up cause  
Just one hit is like ooohh  
It's some good shit ain't it?  
Yeah them cookies don't be bullshitting man  
Hey I got something else too, let me roll this up  
Here check this out right here

I got a dab on the nail, inhale  
Got them flavors blowin' outta my lungs when I exhale  
Man I'm ridin' on a cloud, hoverin' over the crowd  
Hear me when I'm cheifin' homie you know we smokin' the loud  
Slow creepin', but the high is heavy  
Freefallin' like Tom Petty, you ain't ready  
Let the Doctor write you a prescription for the medication that goes in me  
Hesitation get the fuck out of our faces man you ain't about it  
This fuckin' rooms crowded, my foot in your ass equals the room without it  
Only for connoisseurs, smokin the pure sure BHO, I got the cure  
And now you're elevated (get high) twist it up, 7 grams in my Raw classic  
Yeah we do it all, we hittin' all bastards  
We got the best products, pick up the phone, call up  
If you're hittin' on my trees then pack a bowl up

You already know we be gettin' high (so high)  
Just one hit is like ooohh  
And it don't stop, we smoke around the clock  
Everyday all day, matter of fact we ain't finished yet  
Here's another one, here hit this

I've been smokin' weed yeah  
Ever since thirteen  
I know that ain't nothin to brag about bitch

But it's hard to smoke more than me  
But I get a beer to equalize it  
I wish they legalize it  
All over the world more than half the people tried it  
It's a medicine, it's good for ya  
I wish that I can puff this stuff without needin' a lawyer around  
In Texas man they're reckless they will hand you up for roaches  
K-9 approaches, barkin' all ferocious  
I know this but I smoke it on a day to day basis  
Mind my business and stay out of their faces  
Cause hey, some way, some day, we may follow  
The marijuana laws like Cali and Colorado  
And if we do? Shit we gonna throw a parade downtown  
I be on the flow blowin' smoke to the stage

And you already we be gettin' high  
Smokin' everyday nigga anytime  
And just when you thought that was it  
Man here come another quarter pound of some good shit  
Time to roll up, we never slow up  
Hold up man, here's another one for ya right here
