

## Bohdi Outro

Berner

So, uh, seeds, I talked to, uh, seed production, the seeds will be harvested on the nineteenth and they'll have them to me by the end of the month

Do you want them bagged up or single? And then also, we should really come to terms on which ones you want for the album and which ones you want for Emerald Cup, and then, yeah

Me and- maybe, me and you, Berner, can talk about the album one's 'cause I know we were talking about one kind

But I'm almost thinking, if this is your legacy and you really want people to get jazzed up, we should go for like, the possibility of the one that I know is gonna be the ultimate best

Which I would have to say is probably the Zkittlez Lavender Lemonade, and I know you have a strong connection to Zkittlez with the flavor and such, but we might wanna save that as well

But the, the Congo Kashmir Lavender Lemonade has some good plants, they're a little bit on the sativa side, um, the best individuals have kind of this like, green apple, pineapple, Hawaiian, shaved ice, vanilla, spice, kind of, alpine forest vibe going on, which is really neat, the apple, almost like a green apple, which I like, with forest

Um, and then there was one I was really excited about, was the Orgasmatron, um Lavender Lemonade and that had some of this like cranberry-lime gas things

Also, the amounts of seeds, so, the Zkittlez Lavender Lemonade has a ton of seeds, and the Congo Kashmir Lavender Lemonade has a lot of seeds, and then the, uh, the Orgasmatron Lavender Lemonade has less than those two

So, we can all talk about this when you guys are ready, I mean, Berner, I mean, Omar, I mean, however you wanna do it

I'm just glad to feel- be feeling good again, hope you guys have an amazing week and biggest love and blessings to you guys in all of your endeavors and projects, okay
