

Doubled It

Berner

I took a hundred fifty and I doubled it
Carbon paper with the bubble wrap on another trip
In love with the game, don't know I try and run from it
Don't know why I try and run from it
I took a hundred and I doubled it
Yeah, I took a half a million and I doubled it
I took another million and I doubled it
I took the cash I owed you and I doubled it

I come from dub sacks on Haight Street
To two flagships on the same street
I used to hate it when my renters wouldn't pay me
I used to double up the work and pay the late fee
Turned a hundred to a milli' in a couple months
And turned a milli' to a billi', did it more than once
There's plenty more to come, and when this tour is done
I'm back trappin' in the Florida sun, yeah
Run a bag up and double again
I'm gettin' greedy, please make it, I'm in trouble again
Six milli' for the crib, I'm lovin' [?]
[?] I get love in the penn'
Sent pics to my cousin, hope I see him again
Cancer almost took me out but I beat it again
Still here, real vet, turned three into ten
Real plug, lots of benefits to bein' my friend, Bern

I took a hundred fifty and I doubled it
Carbon paper with the bubble wrap on another trip
In love with the game, don't know it try and run from me
Don't know why I try and run from it
I took a hundred and I doubled it
Yeah, I took a half a million and I doubled it
I took another million and I doubled it
I took the cash I owed you and I doubled it

I come from the city of fog
And when it comes to weed, I'm a snob, mob
Turned a twenty-lighter in the garage
To five hundred milli' a year, I'm doin' it large
Fake followers, it's all a façade
They don't eat like us, their whole hustle is fraud
I stepped off the stage and got the applause
Invest in the real estate, not jewelry and cars
Loaded, but the hustle is crazy
I stay away from people that's lazy, the people embrace me
'Cause I represent the underdog
Buy it all up and watch the others talk
It's cutthroat in the Bay, but I love the way it raised me
Let 'em keep on trying, this shit'll never phase me
This new shit blue, and it's hella tasty
Mr. Double Up, the whole industry pays me

I took a hundred fifty and I doubled it
Carbon paper with the bubble wrap on another trip
In love with the game, don't know it try and run from me
Don't know why I try and run from it
I took a hundred and I doubled it

Yeah, I took a half a million and I doubled it
I took another million and I doubled it
I took the cash I owed you and I doubled it
