When the city on Mars
It can survive even if the spaceships from earth stop coming for any reason
Doesn't matter what the reason is, but if they stop coming for any reason
Will it die out will it not?
And if there's even one critical ingredient missing then it still doesn't count

I wrote this shit perfect, let's smoke
I got it fresh pack off the road
He drove six hours just to put it in my hands
And get it all early, I love to be the man
House look like a cannabis club, all the jars
Outside parking garage with all the cars
Pay with cash, I ain't swiping the car
Get money in the bank, bend way too hard
We like top-notch bitches, five-star dishes
OT players 'cause Cali been vicious
And I'm higher than the gas price
Might take a dab if the hash right
I might sell all of this cash right
You know a little hype won't last, right?
Cats feeling themselves
But they really killing themselves

I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon
Someone call Elon
I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon
Someone call Elon

Coke-white kicks, fresh new fit
No bags in my whip, I don't wanna get bipped
I'm tryna send seeds to Mars, I'm too high
But I do wanna leave the best weed behind
No more trapping, photo snapping
Cops in my ears, I don't know what happened
Fresh-trimmed bud in my bag
Best shit I ever had
From sea to sale, vinyl shelf
A real pioneer, please remind yourself
From cherry pie cookie and syrup
Gelato pound cake Gary and Cyril
When the audios hit, watch the shit get real
Alamo cross this planet in Brazil
Big smile when that chocolate hit
I love the shrooms, fuck an oculus

I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon
Someone call Elon
I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon

Someone call Elon

Yes, ideally less than, much less than a million tons
But if it's not, like, it's gotta be
You have to say like well how much can society afford to spend
Or wants to, wants to spend on a self-sustaining city on Mars

I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon
I smoke weed, eat mushroom bars
I'm tryna send seeds up to Mars
Someone call Elon
