

Black trucks, back to back
I'm in a bulletproof Cadillac
On a hot phone, where the package at?
I'm young and I'm rich, how you mad at that?
All the way in the A, they be rollin' up smoke from the Bay
When I'm out in LA, I blow kush to the head all day
JFK, I land around 9 and I blow a lil sour, take a Xan to unwind
I got cookies online, I'm tryna f*ck the east coast and duck fed time
Hawaii in the winter, got my own beach
Private chef cook me dinner
We just gotta live, I'm just tryna smile
I remember bein' dirt broke for a while
Grab the whole floor for the crew
Naked bitches runnin' in and outta rooms
All the killin' on the news but we ain't got a clue
What the government's really tryna do
And that's too deep

I'm so dope
I'm so dope
Remi, coke, let me smoke
I'm high, I'm in my own world, let me float
Let me know, are you high as me?
Your weed man ain't got no price like me
Remi, coke, let me smoke
I'm high, I'm in my own world, let me float

Let me know, are you high as me?
Your weed man ain't got no price like me

Black trucks, back to back
I'm in a bulletproof Cadillac
In the trunk, there's a 50 pack
Ride around dirty, I'm just tryna bring my city back
Hella girls at my shows and they down for whatever
I Just need a lil dome
I wake up stoned, I roll 2 to the head
They wanna take my throne
f*ck [?], they shoulda played they role
I'm oldschool Bay with it, better pay that toll
You burn bridges and you save bitches
We got the same weed but mine taste different

I'm so dope
I'm so dope
Remi, coke, let me smoke
I'm high, I'm in my own world, let me float
Let me know, are you high as me?
Your weed man ain't got no price like me
Remi, coke, let me smoke
I'm high, I'm in my own world, let me float
Let me know, are you high as me?
Your weed man ain't got no price like me
I'm so dope
I'm so dope
