

I'm dreaming, wide awake and not sleeping
I'm dreaming, wide awake and not sleeping
(Sleepwalking)

Ugh, that's the shit you like
Right when I land, that get me right
You ain't never tasted Lemonade
Or the Wedding Cake, or the Jungle Cake (love the Jungle Cake)
Pot hoe got me elevating
Cop another pound, we celebrating
Daydreaming like a mahf*cka'
Fly Life Chocolate Diesel, let's smoke somethin'
Now I'm later, yeah I'm missing names
We dip our shit in sauce just to get the taste
Snowman rising got me half awake
I bet the whole world smokes when I pass away
Now everybody wanna build a brand
I got one question. Do you love the plant?
Watching crystal dance through the turkey bag
I put my hand in the pound, pull out 20 grams
I ain't sleepin', wide awake dreamin'
I'm really just stoned, they think I'm leanin'
We ride around in bulletproof Europeans
And bring bitches back, to the Four Seasons
4 mil' bubble in my king size
We ain't smokin' Raws naw we smokin' vibes
I be on the island drinkin' Mai Thais
Cloudy brain, smokin' watching time fly

We only smoke that good shit
Yeah, we only smoke that good shit

We only smoke that good shit
Take 2 to the head, I'm too lit

We only smoke that good shit
Yeah, we only smoke that good shit

We only smoke that good shit
Take 2 to the head, I'm too lit

We only smoke that good
That's that Cherry Pie
The cookie changed the game, I wonder why?
My boys in Miami want a better price
Fill the truck up, take a red eye flight
Waikiki tastes like Chocolate Cake
I'm out in Waikiki, getting blazed
Throw a bag to the locals
Playing with the mail make me wanna go postal
It's your favorite rappers' weed man
I'm on shrooms, talking to my weed plants
I'm on toad, tryna grab a f*cking star
Roll a ounce up, buy the bar
We smoke when we eat our steak
Jigga popped some seeds and it need a name
Find a big grow, fill it up with strains

I ain't touch a thing, and I'm getting paid
Cookie bags and the new exotics
If you smell the soap, then you know we brought it
When you're doing good, then they watch your pockets
Made a lot of bread, took a lot of losses
Real talk, I'm feeling high as hell
Roll another one, shit we might as well
Will they ever free the weed? Only time will tell
You're stuck on your back, we only sell

We only smoke that good shit
Yeah, we only smoke that good shit

We only smoke that good shit
Take 2 to the head, I'm too lit

We only smoke that good shit
Yeah, we only smoke that good shit

We only smoke that good shit
Take 2 to the head, I'm too lit

We only smoke that good
We only smoke that good

We only smoke that good
