

# Juice

Berner

This one gonna get big-headed  
[?] know where you headed, yeah  
From seed to sale  
Bern

Every story got two sides, in due time, you'll hear mine, trust me, I'ma do fine  
Would you really do time? Cause when you do crime, you better grab a new line  
Every other week, you know I got the juice, right?  
Even got a second chance, I've been given two lives  
Eatin' up the market share, even got a new price  
Bring the buyers over here, I guarantee they choose mine  
Lookin' at your stock, I got pinkeye  
And these guys tried to buy me three times  
Let 'em sell cheap wine (For real)  
You ever move a metric ton?  
Let it fly to Germany, they fightin' over everyone  
Fuck a stock, I want the NASDAQ  
I'm smokin' on somethin' that nobody has yet  
Look at all these assets, house titles for the entourage  
And still got a home-grow setup in my garage  
Cold shit is, I ain't even started yet  
I'm 'bout to buy my own plane while they still charter jet  
[?] from my cousin Scott, this has been the hardest yet  
I'm thankful for the memories, I hate that's all that's left  
Purple rain feel like novocaine, I'm smokin' 'til I pass out  
When I dream, see an open lane, we got the same twenty-four  
And when the power come, this shit change even more, for real

I got the juice, what you do with the power?  
'Cause money make your love run sour  
I got the juice, [?]  
I'm watchin' weed get devoured  
I got the juice, ayy, I got the juice  
I got the juice, I got the juice  
Shit fallin' in my hands, if you'd rather be a man  
I got the juice

I'm smokin' on the highway, ran up with a side play  
Tell me how that's goin' again, it's pretty lightweight  
Haven't heard your name in a while, oh, the time change  
Woke up in Asia again, I'm [?]  
On Twitter with a subtweet, cryin' like a bitch again  
Say you bread what? How it feel to be the middleman?  
Make me wanna kill a man  
Nah, I'ma roll one and hop in the spa  
I fell in love with the house and bought the first one I saw  
Take the old money, tuck it in a couple of wads  
See, the juice will keep you up at night  
You can't sleep, you gotta move different, harder to reach  
Different heart, I'm a beast, new car just a part of the fleet  
I need a little more margin for me, it's gettin' harder to see  
Yeah, and I don't wanna lose, just try and walk a day in my shoes

I got the juice, what you do with the power?  
'Cause money make your love run sour

I got the juice, [?]  
I'm watchin' weed get devoured  
I got the juice, ayy, I got the juice  
I got the juice, I got the juice  
Shit fallin' in my hands, if you'd rather be a man  
I got the juice
