

## Last Run

Berner

They say that money ain't real  
So I lit this joint up, with a 100 dollar bill  
I used to take trips, out to Arizona with the zip  
Running game, we was playing with bails in 96'  
Took too many losses, the mail make me sick  
Did it show up to the crib, or we take another hit  
Don't ever use your name, tell them leave it on the steps  
The signature is waved, have someone on the inside  
Working on that truck, they switch his route on them  
Now my checks fucked up, grow spots in the middle of the city  
Stealing power got me popped, I was out 250  
A Quarter mill was a lot back, then now we stash a whole crop,  
An a black mac 10  
On the radio checking on my driver, this the story of a man tha  
t Breed weed to get you higher

We don't move until the cash come, hit my connect an tell em Ca  
ll me when the pack come  
Under pressure cause this life it's a fast one  
On God just one more move an than I'm done this my last run  
Just one more move an than I'm done, this my last run  
I'm a stack a few mill an then I'm done, this my last run

They say that money ain't real  
So I lit this joint up with a 100 dollar bill  
Cannabis clubs pay me a pretty nice fee, to grow the shit I rap  
About, ain't life sweet  
I used to pray that my bank don't freeze  
But keeping cash in the house makes it hard to sleep  
My accounts got flagged, because some girl in Atlanta  
Just dropped 8 grand  
When I landed in LA an saw that badge in his hand  
He pulled me to the side, how much cash do you have  
That's a feeling I can't shake, 6 cell phones, in a small crib  
full Of weight  
We really broke the bank, we are the reason why they don't Take  
cash anymore at the Chase  
This the story of a man, that changed the whole game with a Pla  
nt

We don't move until the cash come, hit my connect an tell em Ca  
ll me when the pack come  
Under pressure cause this life, it's a fast one  
On God just one more move an than I'm done this my last run  
Just one more move an than I'm done, this my last run  
I'm a stack a few mill, an then I'm done, this my last run
