

Motion

Berner

(I got Traxx on this bitch, I don't know how to act)

When you got motion
Yeah, when you got motion
When you got motion
When you got motion, motion (When you got)
When you got motion

When you got a lot to live for, you think different
Money on my mind, I sleep different
Lil' bad bitch I keep hittin' (I keep hittin')
Money on her mind, she need pimpin'
Too many cars, my keys clickin'
When you got motion the envelopes keep flowin' (They keep comin')
And the lawyer fees growin'
Top of the mountain, the views look like AI (AI)
Lil' model bitch and she bi (Ha)
I bought a gold bar in Dubai, and now we take showers when we fly (Yeah)
And now we sell powder when it's dry
Shout out to the coke plug (To the coke plug)
Get a lil' motion and show love (You know how that go)
All these lil' beefs seem obsolete
Another day another non-compete (Damn)
Cats in my ear, the talk is cheap
Eight-hundred million's what they offer me (Yeah)

When you got motion (When you got motion)
Yeah, when you got motion, motion
When you got motion
When you got motion, motion (When you got)
When you got motion
Life's like a game of Monopoly, I just keep grabbin' up the property, yeah

When you got cards with no limits, they don't get it
New phone for my old bitches, they all with it
Thick target, but they can't hit it (They can't)
They been tryin' for years, but, I'm still in it (I'm right here)
I am not the one to leech on
I told 'em back then, not the one to sleep on
And now they all broke, I sit back and I breathe strong
And we only rock it, knots in my pocket
Made three-hundred grand and I fucked off the profit
All new custom drip in my closet
Bank-wired codes in my phone from deposits
We ain't worried 'bout the losses
When you get motion, you move cautious
All the motion got me nauseous

When you got motion
Yeah, when you got motion, motion
When you got motion
When you got motion, motion (When you got)
When you got motion
