Dirty money counters on the counter
Ayy, from seed to sale
God damn, Rob

Somethin' to slide to, red North Face match the 1's, no Piru
I miss takin' trips, I only fly Blue
I need the min seed before the vacuum seal
It was triple Glad bags, man, this shit reek
It's almost summertime, I'm tryna hit Greece
A pound of this will cost you six G's, yeah
We touch big cheese, this shit fresh-squeezed
I heard they took the homies down with the Fed [?]
Old C-notes in the floor with my passports
A hundred thousand in my Jansport, got everything they ask for
And more
Why they mad? 'Cause they can't score
I miss sellin' cream, but the weed game nice
Get ghost real quick if the fee ain't right
All the jewelry around my neck help me see at night
I'm shinin', big dog, they won't beat this price

When it's time to slide
Here's somethin' to slide to
When it's time to slide
Here's somethin' to slide to
When it's time to slide
Here's somethin' to slide to
Here's somethin' to slide to
A lil' somethin' to slide to

Elevated, we ain't easy to touch
I got the hottest shit around, they been eatin' it up
I've been stayin' out the way somewhere deep in the cut
I bet this shit fall apart if you don't feed 'em enough
Military scope on my new AR
Pick 'em off from a distance but my goons ain't far
In '98 I put purp on the plane when I would fly
Southwest Airlines, I couldn't even lie
Before 9/11, we had the sky lit
Carryin' our luggage full of work, I'm a flight risk
They used to blame me for all the price dips
Unicorn shit, I got the game in a vice-grip
I used to sell cream and now I dream about it
Compact nine on my waist, I don't leave without it
Done with this lighter, better aim right
Faced my own snakes in the grass, that's what the game like

When it's time to slide
Here's somethin' to slide to
When it's time to slide
Here's somethin' to slide to
When it's time to slide
Here's somethin' to slide to
Here's somethin' to slide to
A lil' somethin' to slide to
