

# Too Many Goats

Berner

It's 12 A.M  
I've been out all day  
But I got envelopes to pick up  
Brown bags to grab, yeah

From a whole different area, looking at the game  
It's a fucked up scenario (It's fucked)  
Smoke out my burial, convos with Aerio  
I just sat down with the government in Ontario  
They're my biggest client now (Client now)  
They load up cargo planes and they fly them out  
Two mill' in six minutes, big business  
New crib in the cut cost six tickets (Six)  
Hunnid million dollar fund  
This my third one, I already won (I won)  
You got a plug in California, is it a steady one  
Or does he play the fake prize game like everyone?  
I'm locked into eighteen with a great team  
Never been to jail, pray I stay clean (Stay clean)  
The OGs respect me  
The factory set on the Prezi', look sexy (M-M-Maybach Music)

Run the streets until it's dark, call it calisthenic  
'Til you run into my dog, call it paramedic  
Before you ever get the ball, boy you gotta dead it  
You can go against the laws, not in Carol City  
Lamborghini, I let the doors up  
I'm in the street selling weed 20 million on the tour bus  
They keep it G, just ignore the money  
The currency 'cause it leads to everything your mama never wanted  
I thank the Lord I wake up every morning  
'Cause He sees how I think, I pray He give me everything I wanted Hundred shots that's in this metal on me  
And I'm a bless a nigga with it, any nigga thought he ever want it

Yeah, we living the life, me and all my guys  
You know I keep money on the line  
Swear we living the life, we in paradise  
I won't lie, it'll blow your mind (Ooh)  
I'm so, I'm so high  
Know I gotta keep my feet up in the sky, oh

Caterpillar metamorphosis to bigger nigga  
Lenin in his hand, Headless Horseman to the rhythm  
Been successful for so long, I can no longer feel it  
Take your finger, pricking mob-initiated members  
I'm far beyond the dawn, my title ain't even listed  
Federales listen, only hear me chewin', sippin'  
Dancing with a dog, prom night with Cinderella  
Then we dipping the Ferrari, fly as Tom Selleck  
Vocals on Tony Bennett, I'm only in it  
To later see people I taught tell me, "Yo, we did it"  
A letter revolution in the world of tech and music  
Free the homie, did his time and paid the restitution  
Time go quick, better have all your goals set  
You getting yours or just hanging on like an old dick?  
I can talk 'bout money, we ain't the same son (Ha-ha!)

It's just different when you came from where I came from (Uh)

Yeah, it's me again

This thing of ours you will probably never see again

Before the growth, it's the oath we're believing in

LOX Costa Nostra, yeah, it's three of them, Louch, P and him

I'm the nigga they can't stand no more

Work more ammo, Gambino in a Lambo

Call me for a situation you can't handle

More caskets, more murals, more candles (Mmm)

True poet, Audemar, Hublot it

Ever I know, I'd rather die 'fore you know it (Die)

Uh, high profile, this shit sells (Money)

Call Mary Richmond and tell him, "Pick twelve" (Mary)

Cause we never sing, we on to better things

Pride is nothing, integrity is everything (Woo)

Yeah, if you broke, how you giving advice? (How?)

Me and my niggas, we just living the life (Word)

Yeah, we living the life, me and all my guys

You know I keep money on the line

Swear we living the life, we in paradise

I won't lie, it'll blow your mind (Ooh)

I'm so, I'm so high

Know I gotta keep my feet up in the sky, oh
