I got this West coast alchemy  
Worm in the middle of the mushrooms  
I'm waiting for the visuals  
Quick trips, big whiffs, been winnin' since '06  
Your favorite brand fell off, went broke and been ghost since  
Organize the bundle first, take the hundreds out  
And go and buy a hundred Percs  
And back in '09, Texas was a gold mine  
Been runnin' shit this whole time  
Switch my number up, they blowin' up my phone line  
Candles with the cash inside  
Got a six-hour trip, I'll be back tonight  
When your bag right, anything is possible  
And nothing is an obstacle, I'm probably somewhere tropical  
Smokin' on that Pacman, nothin' else comparable  
Weed game legend, dope game honorable  
I'm 'bout to fly to Mykonos, have you ever been?  
A hundred grand on the field, I'm fuckin' off the win  
Top floor in the city of sin  
And it's top-shelf herb in every city I'm in  
Yeah, we been runnin' the game  
I'm on top still, they don't feel nothin' 'bout pain

We ship big packs, big stash close to where the crib at  
I'll show you how to get cash, 'cause all of us got rich fast  
Planes, trains and automobiles  
I'm just ridin' 'round dirty, one hand on the wheel  
Yeah, one hand on the wheel  
I used to ride around dirty, one hand on the wheel  
Yeah, one hand on the wheel  
I used to ride around dirty, one hand on the wheel

They got comfy, I ain't even close yet, they think I'm flexin'  
I ain't even boast yet  
On the water where my boat sit  
Five point five for the crib, next to a view of the ocean  
Eyes heavy and this shit smokin'  
I ride the Benz like this bitch stolen, I'm still holdin'  
Do they really touch mills? 12:00 noon, another truck filled, feels good to  
be the plug still  
Medellín was a blast, had a spot lookin' like a nightclub in the back  
Tipped the chef real well, I'ma slide him the stack  
If I run outta smoke, I'ma fly in the bag  
Whole table full of ex-cons, think it's sweet then you dead wrong  
Young and wild and my bread long (Bread's long)  
One hand on the wheel, slidin' with the other hand on my steel
