Candle Dancer

Bertie Higgins

I remember well, your fl ashing
Eyes
Soft and green as key lime pie
And how they fi lled with love
When you looked at me
And the shadows upon the wall
At night
At night
As you danced for me by the
As you danced for me by the
Candle light
Candle light
If only once more I could see
If only once more I could see
My candledancer, my young
Island girl
Island girl
Your love was the answer
Your love was the answer
It lit up my world
Though the candle light is gone
Though the candle light is gone
The fi re still lingers on
The fi re still lingers on
Give me one more chance
Give me one more chance
Dance
The dejavu of days with you
The sun so bright, the sea so
The sun so bright, the sea so
Blue
Blue
Somehow I thought it could
Ever end
Ever end
But here I am alone tonight
Staring into the candle light
Staring into the candle light
Trying so hard to pretend
Trying so hard to pretend
I see my candledancer

My young island girl
My young island girl
Your love was the answer
Your love was the answer
It lit up my world
Though the candle light is gone
Though the candle light is gone
The fi re still lingers on
The fi re still lingers on
Give me one more chance
Give me one more chance
Dance
I see my candledancer
My young island girl
My young island girl

Your love was the answer
Your love was the answer
It lit up my world
Though the candle light is gone
Though the candle light is gone
The fi re still lingers on
The fi re still lingers on
Give me one more chance
Give me one more chance
Dance
I see my candledancer
My young island girl
My young island girl
Your love was the answer
Your love was the answer
It lit up my world
Though the candle light is gone
Though the candle light is gone
The fi re still lingers on
The fi re still lingers on
Give me one more chance
Give me one more chance
Dance
