

Spitfire

Bertine Zetlitz

Be careful little girl,
Before you rock his world,
You know he likes to watch you when you sleep.

Be careful little one,
Make sure you have a gun,
Make sure his promises are all to keep.

We're spitfire,
We run right through your mind.
Spitfire.
We leave you far behind.
Spitfire.
Your face against the wall.
Spitfire.
You know, he's gonna watch you fall.

Be careful little miss,
Be careful who you kiss.
Make sure that he's the one you want to see.

Be careful little dove,
Be careful who you love,
Make sure you're choosing him instead of me.

We're spitfire,
We run right through your mind.
Spitfire.
We leave you far behind.
Spitfire.
Your face against the wall.
Spitfire.
You know, he's gonna watch you fall.

Spitfire. x4

Be careful little bird,
It's true what you have heard,
Sometimes he even cries outside your door.

Be careful little star,
You're riding in his car,
I'm certain you have felt this way before.

We're spitfire,
We run right through your mind.
Spitfire.
We leave you far behind.
Spitfire.
Your face against the wall.
Spitfire.
You know

We're spitfire,
We run right through your mind.
Spitfire.
We leave you far behind.

Spitfire.
Your face against the wall.
Spitfire.
You know, he's gonna watch you fall.
