

## When Will I Change

Best Coast

The weight of the world  
Crushes down on my shoulders  
I'm a big girl now  
But I don't feel much older  
I think of the end  
It plagues my mind all of the time  
I wish that I had a friend  
Who would just tell me I'm fine  
Tell me I'm fine

It's not that bad  
And I have no reason to be sad  
But I find a way  
Almost everyday, I stay this

When will I change?  
When will I change?

It's not that I want more  
It's just that I want what I paid for  
This feelings they are degrading  
I just don't really get the meaning  
Get the meaning

It's not that bad  
And I have no reason to be sad  
But I find a way  
Almost everyday, I stay this

When will I change?  
When will I change?

When will I change?  
When will I change?

(4x):

Visions of hope, visions of love  
More than before, I want them to come
