

# Apocalypse Prayer

## Bestial Mockery

You can't understand  
All this fucking hate  
Burning deep inside of me  
Consuming my very soul

I want to burn all bridges  
Leave all shit behind  
I want you see your fucking eyes  
Cry out your vain hope

You cunts gave me no choice  
And maybe there never was  
The ruins you call world  
Shall be blown to the fucking ground

Christians, Muslims, Jews  
And all you fucking else  
How beautiful would it not be  
To see all your throats cut

Yes, I worship The Devil  
And I don't believe in heaven's grace  
One day the fucking smile  
Shall melt in nuclear fire

I would rejoice in seeing you fucks  
Writhe in endless pain  
The fire that burns within me  
Shall burn your dirty souls

Oh, I want to paint the world  
With the blood of your children  
See your future fucking die  
And all you shall remember is pain

I wouldn't give a fuck  
If all the children died  
If all helping hands  
Were cut off at birth

And I shall piss on the corpses  
Of a mother and her child  
Then I shall drench it all in gasoline  
And light the fucking match

I call upon the spirits of napalm  
Landmine, shrapnel and death  
Now, give your sacred blessings  
To all living on this earth
