

## Sledgehammer Sacrifice

### Bestial Mockery

Marching through bloodred snow  
Barbarians of the evil horde  
We crush your skull with ease  
Ride into battle for the Lord

I molest my enemies 'til there's nothing left  
Wading in blood, I attack the pack  
Surrounding death, we are of Hell  
Agonized screams and the battlecries yell

Maniac warriors spreading death  
I smile as I impaled your skull  
Fields of slaughter and the stench of blood  
Sledgehammer sacrifice, heads roll

Crushing fucking evil onslaught  
I smash your fucking head  
We rage forth, without meaning you fought  
But now you are fucking dead

Outburned churches with crucified priests  
Headless christians in the Devils feast  
The flames won't cease, we ride on to future war  
Don't try to stop us, we have opened Hell's door

Maniac warriors spreading death  
I smile as I impale your skull  
Fields of slaughter and the stench of blood  
Sledgehammer sacrifice, heads roll
