Beta Radio

Borderline oh borderline, won't let me through  
Borderline oh borderline, the family knew  
Can't cross without a cause, won't leave without a clause  
Borderline oh borderline, will do the same to you too

Messenger oh messenger, where is our news  
Messenger we've waited days, to hear from you  
You've brought us no report, you came alone before before  
Messenger oh messenger, we're alone too

Borderline oh borderline, won't let me through  
Borderline oh borderline, the family knew  
Can't cross without a cause, won't leave without a clause  
Borderline oh borderline, will do the same to you too  
Borderline oh borderline, will do the same to you too
