

Don't Leave Me Behind

Beta Radio

Sometimes I feel what I can't translate
Don't leave me behind
Sometimes I sing the things I cannot say
So please don't leave me behind
These little moments all will add up like the rain
Falling down, so warm
These little moments are the secrets that I sing
Say that you're a door

I woke up out of a heavy head
The cloud was around my conscious mind
The pandemic outbreak at the end of days
I'm unfurling in the whirlwind when the world's on fire
If I can't tell you then how would you know
Our heart's been slowly opening overtime
And all my flames are burning toward your own
So please don't leave me behind

'Cause these little moments all will add up like rain
Falling down, so warm
These little moments are the secrets that I sing

To say that I don't know why or where in the world, I'm wonderi
ng
There was a flash in my mind, somewhere along that plane
To say that I don't know why I got so lost in my suffering
To say it'll all add up like rain in time

So don't leave me behind
Don't leave me behind
No, please don't leave me behind
Oh, please please, don't leave me behind
