

## Inside a Wave

Beta Radio

Found myself inside a wave  
That I thought I could never trust in  
Everyone of us  
All will come to know  
I feel myself inside a breeze  
That I thought would blow me over  
Everyone of us  
All will lose control

I thought I  
I thought I saw myself in you  
I surrendered to the ruse  
And I was rolling  
In the heavy glory of a Visitorial  
Can you show me

Found myself inside a grave  
I was breathing in the dust  
Carnations for a soul, yeah I know  
But I don't really know how to hold my  
Head above the waterline, I wanna wash away  
It'll all deliver for you, I adore you  
It'll all deliver for you anyway

I thought I  
I thought I saw myself in you  
I surrendered to the ruse  
Or is it just me here pretending  
That every one of us  
Are something other than  
What we could lose

I thought I  
I thought I saw myself in you  
I surrendered to the groove  
But I was rolling  
In the heavy glory of a Visitorial  
Can you show me

Found myself inside a wave  
That I thought I could never trust in  
Everyone of us  
All will come to know  
I feel myself inside a breeze  
That I thought would blow me over  
Everyone of us  
All will lose control
