

# It Doesn't Really Feel Like Spring

Beta Radio

In life  
Look in my eyes  
And see  
We're circled by  
Uncertainty  
But little rose  
You're all I need

In life  
I'm not surprised  
To see  
These changing tides  
Are pulling me  
We spread the strain  
And the epoch changed  
Are we not as safe  
As we thought we'd be  
In life

I don't wanna come out on the highway  
I don't wanna step out of the door  
I don't wanna fall away in the decay  
But I wanna know the state of the world  
I don't wanna come out on the meadow  
When it doesn't really feel like spring  
And I don't wanna miss the pull of the old way  
'Cause it's not showin' me anything now
