

Way of Love

Beta Radio

On the way of love
I remembered who I was
I had been holding loss
Everyone falls apart
I felt it shaking
A volcano song, the earth's quaking inside of me
I'm learning patience
Everything old is breaking apart in me

But on the pass
That brought me back
I couldn't tell
The ground from grass
I couldn't see
The forest from the trees
Do you know
The way to go

On the way of love
I began waking up
I opened my eyes and saw
Everyone's here, all souls delivered
I parked my car
In my old yard and felt all the old parts of me
Got high and walked
Into the hard blow of a heartbreak breeze

But on the path
That brought me back
I'd forgotten
All that I had
I need a sign
To come and remind me
Do you know
The way to go

I saw lightning strike
And every heart break apart
These are times of lies
All bee colonies will rise
A kiss betrayed me
Put your tongue on me, baby
I've been parading
Like nothing I could describe

And so I thought
I could go
Through the pass
To the pool of souls
Take your time
No, I don't mind it
Cause all in all
All souls delivered
