

I can't wait another sunrise  
Without you here  
I don't know what to do

Won't you tell me is this alright  
Do you have any plans  
What makes you move

We never talk about it  
I've gotta tell you what I'm feeling  
For you  
You've got me automatic  
Don't have to doubt it when I say that  
It's you  
It's you

I can't wait until the springtime  
Sun in our eyes  
Flowers in bloom  
You can kiss me in the meantime  
Break through my walls  
I want you too

We never talk about it  
I've gotta tell you what I'm feeling  
For you  
You've got me automatic  
Don't have to doubt it when I say that  
It's you  
It's you

It's you  
It's you  
It's you  
It's you  
It's you  
It's you
