

Closer To The Sun

Betcha

Stayed up all night long
Trying to get it right
Fear I won't belong
Till I go outside

On the water
Staring inside of the sun
Wanted to pull me closer (Closer)
On the water
Staring inside
Can I go for a ride to the glow?

When I'm with you
I'm closer to the sun
I pack my bags and go
Like I'm on the run
When I'm with you
I'm closer to the sun

I wanna get, get, get away
I wanna get, get, get away
I wanna get, get, get away (I wanna get, get, get away)

Stayed up all night long
Staring in my eyes
Feel I don't belong
Till I'm in the light

On the water
Staring inside of the sun
Wanted to pull me closer (Closer)
On the water
Staring inside
Can I go for a ride to the glow?

When I'm with you
I'm closer to the sun
I pack my bags and go
Like I'm on the run
When I'm with you
I'm closer to the sun

I wanna get, get, get away (Get away, get away)
I wanna get, get, get away (I wanna get, get, get away)
I wanna get, get, get away (I wanna get, get, get away)

When I'm with you
I'm closer to the sun
I pack my bags and go
Like I'm on the run
When I'm with you
I'm closer to the sun
I wanna get, get, get away
Get away
When I'm with you
I'm closer to the sun
I pack my bags and go

Like I'm on the run
When I'm with you
I'm closer to the sun

I wanna get, get, get away
I wanna get, get, get away (I wanna get, get, get away)
I wanna get, get, get away
(Closer to the sun)
I wanna get, get, get away
