

Jaded

Betcha

I'm gonna misuse until they take it away and that's the issue
Tell me that you're gonna stay
Don't wanna miss you can't let em get in the way
Just gotta kiss you
Tell me what you wanna say

I, yes, I'll go, just take for a ride on your road
You said the water's fine but I know I'm falling for your lies

Then I wake up and I'm jaded
You got me out of my head
I'm so frustrated
I'm turning permanent red
And I keep waiting until you fool me again
You've got me jaded
Don't leave me jaded
Don't leave me

Can't help but chase it you've got me running just gotta taste
it
Meet me any time or place
Need a replacement but you've been burned in my brain just can'
t erase it
You know what I'm gonna say

I, yes, I'll go, just take for a ride on your road
You said the water's fine but I know I'm falling for your lies

Then I wake up and I'm jaded
You got me out of my head
Now I'm frustrated
I'm turning permanent red
And I keep waiting until you fool me again
You've got me jaded
Don't leave me jaded
Don't leave me

(Don't leave me
Jaded jaded and out of my head)
