

Medicine

Betcha

I thought I was losing myself
Didn't know how to ask for help
No water ran under my well
I was too bothered
To better my health

You came like a subliminal spy
And you got into
The back of my mind
Then you cleared all
My invisible lies
I was so far below

Oh you're my do or die
My peace of mind
My only antidote

Baby you're my medicine
I'm feeling like myself again
Baby you're my medicine
I'm feeling like myself again
Ooh ooh ooh

Controlling the beat of my heart
You just rolled up
And you hit a restart on me
So high off whatever you are
I don't need time alone

Oh you're my do or die
My peace of mind
My only antidote

Baby you're my medicine
I'm feeling like myself again
Baby you're my medicine
I'm feeling like myself again
Ooh ooh ooh

Oh you've got me (oh you've got me)
Always living in a dream
Where I'm singing (woohoo)
To who's ever listening
I've decided (I've decided)
That I never wanna be without you

Baby you're my medicine
I'm feeling like myself again
Baby you're my medicine
I need you more than anything...

Baby you're my medicine
I'm feeling like myself again
Baby you're my medicine
I'm feeling like myself again
Ooh ooh ooh
