

## At Night

Betchadupa

Everything is in the world  
The world is in my head  
And here i stand with you  
Take me home it's much too late  
There is much to say  
And here i stand with you  
CHORUS

At night it's all so clear  
At night i'm glad i'm here  
At night night the stars light up your tears  
At night my life is in the air  
Until it's light again  
Here

But i'm alright  
Everything is in the world  
The world is in my head  
And here i stand with you  
CHORUS

But i'm alright (9x)
