

Other Way

Betchadupa

Please don't stand around now
Life is meant to play
Treat your time like money
Its there to give away
Don't go wasting
Choose your time today
Hope the clouds are fading
It goes the other way
Now in the limelight
Attention rules the day
In the bathroom mirror
Reflections offer fakes
I don't know wot time the
Music ought to place
I still don't know when to speak
But just forget and
Think about the next day
Choose your time today
Hope the clouds are fading
It goes the other way
Please don't stand around now
Life is meant to play
Hope the clouds are fading
It goes the other way
Its drifting away
If summer comes
Then why can't she stay
A fathers smile
Is drifting away
Can't help it today
