

# Perfect Doesn't Last

Beth Crowley

I would've bet on us  
We were untouchable, you and I  
I couldn't get enough  
It was a fairytale come to life

I had your heart  
At least that's what I thought

Now I'm second-guessing  
Every moment  
Wondering where we went so wrong  
I just keep asking  
Would this have been worth it  
If I knew the ending all along  
What started so perfect  
Was over too fast  
I should have seen the warning signs  
'Cause perfect doesn't last

You got inside my head  
Taking up every inch of space  
Till there was no room left  
So many parts of me erased

You had my heart  
And tossed it in the dirt

Now I'm second-guessing  
Every moment  
Wondering where we went so wrong  
I just keep asking  
Would this have been worth it  
If I knew the ending all along  
What started so perfect  
Was over too fast  
I should have seen the warning signs  
'Cause perfect doesn't last  
Perfect doesn't last

With my rose-colored glasses on  
I never saw it coming  
Maybe it's good you're gone  
But it still leaves me wanting you  
To finally just tell me the truth

'Cause I'm second-guessing  
Every moment  
Wondering where we went so wrong  
I just keep asking  
Would this have been worth it  
If I knew the ending all along  
What started so perfect  
Was over too fast  
I should have seen the warning signs  
'Cause perfect doesn't last

I would have bet on us

We were untouchable, you and I
