

## Someone Else

Beth Crowley

I've thought this through a thousand times  
What I would do to make you mine  
Other girls can play their games  
I would rather play it safe  
Nobody gets hurt that way

But if I were someone else  
I'd be braver and I wouldn't hesitate  
To walk right up to you and say, "Dance with me"  
If I were someone else  
If you were someone else  
The entire room would just fall away  
To you, I'd be the only one in this place  
If you were someone else  
If I were someone else

The whole scene plays out in my head  
The evening's coming to an end  
Suddenly, the lights are low  
The DJ puts on something slow  
The perfect chance to hold you close

And if I were someone else  
I'd be braver and I wouldn't hesitate  
To walk right up to you and say, "Dance with me"  
If I were someone else  
If you were someone else  
The entire room would just fall away  
To you, I'd be the only one in this place  
If you were someone else  
If I were someone else

And, yes, this might be shaking ground  
But I know where I stand  
It's not worth the fight  
I'm fine with walking home alone tonight

But if I were someone else  
I'd be braver and I wouldn't hesitate  
To walk right up to you and say, "Dance with me"  
If I were someone else  
If you were someone else  
The entire room would just fall away  
To you, I'd be the only one in this place  
If you were someone else  
If I were someone else
