

Take It Back

Beth Crowley

We met up for coffee
Just casually
I said this will be fun but
I lied through my teeth
'Cause it's hard to admit
I was nervous to see you again

I'll never forget it
How we were in love but
I started to question
If it was enough so
I told you I'm sorry
I think we're too young to commit

If I could take it back
Then I would take it back
But what's done is done and
It's pretty clear we both know that

If I could make it right
Then I would make it right
I came to my senses
But I didn't do it in time

Now you're sitting here and
It feels kind of strange
'Cause it's all so familiar
Your smile is the same
And I find myself blushing
Like nothing can change
You and me

How would you react if I
Told you the truth
When I tried to go out and
Meet somebody new
In the back of my mind
I compared them to you
Constantly

If I could take it back
Then I would take it back
But what's done is done and
It's pretty clear we both know that

If I could make it right
Then I would make it right
I came to my senses
But I didn't do it in time

I'm reading into the subtext and
Dancing around the subject
But I can't let you leave
Without asking

If I could take it back
Would you let me take it back?

'Cause I just want you back

If I could take it back
Then I would take it back
But what's done is done and
It's pretty clear we both know that

If I could make it right
Then I would make it right
I came to my senses
But I didn't do it in time
I came to my senses
Tell me that we still have time
