

Too Late For Me

Beth Crowley

Can you feel it
There's a shadow over this town
We try to shake it
But it keeps on coming back around
The devil's in disguise
Gonna make you choose a side
Can you feel it
There's a shadow over this town

Strip me down and
Lay me bare
Cross your fingers
Something's there
Can't see what's underneath
The darkness runs too deep
I just keep on hoping that it's not too late for me

I wanna be a hero
But the villain's having more fun
Which one of us will wear the bigger bruises
When the war's done
There is no wrong or right
When you're fighting for your life
I wanna be a hero
But the villain's having more fun

Strip me down and
Lay me bare
Cross your fingers
Something's there
Can't see what's underneath
The darkness runs too deep
I just keep on hoping that it's not too late for me

We all pick our poison
But it's a hard pill to swallow
Blurring the lines between what's good and what just feels good
We all pick our poison

Strip me down and
Lay me bare
Cross your fingers
Something's there
Can't see what's underneath
The darkness runs too deep
I just keep on hoping that it's not too late for me
I just keep on hoping that it's not too late for me
