

# Reaching Out

Beth Gibbons

You said you will  
You said you won't  
You can't tell  
If you don't  
You stand alone  
On your own  
Reaching out  
Holding on

Now you will  
But then you don't  
You say you want to  
But now you won't  
You stand alone  
On your own  
Reaching out  
Holding on

(Where's the love gone, where's the feeling?  
Where's the belief in the words we're breathing?  
Why do you wander away from me?)

Don't need no other like I need you always  
(I need you always)  
I need your love to silence all my shame  
I need you always

The feeling of falling  
The shadow's a warning  
Wanting to quiet, to tame this disorder  
But round in a circle you go

Don't need no other like I need you always  
(I need you always)  
I need your love to silence all my shame  
I need you always  
So please, don't misunderstand  
To silence all this shame

I need you always  
I need you always  
Always  
Always  
Always
