

Time rolls as days go by
And now I've figured that I ain't gonna last
Summer skies are leaving me behind

So resolve your loving said all
I'll be lost when you're gone
Blind me from keep
Blind me

Cause times told as days go by
I still ponder this old question why
But now I know there's no time to decide

So resolve your loving said all
I'll be lost when you're gone
Blind me from keep
Blind me

And daylight knows
How my eyes have tired
Like the circles life evermore will bear

So resolve your loving said all
I'll be lost when you're gone
Blind me from keep
Blind me
