

# When You Wake

Beth Orton

When you wake in the morning  
so blue  
See the sun replace the moon  
It isn't hard to do

When the light shines  
Everything you are  
And the light shines  
It's there for you my love

Doo-dah-doo...

When you wake in the morning  
Leave the shadows where they lie  
Make the changes right away  
Tomorrow is today

When the light shines  
Everything you are  
And the light shines  
It's there for you my love

Doo-dah-doo...
