

Standing In Miracles

Bethel Music

I see You in the skies with purple hues
I hear You in the quiet morning too
And when the world is still asleep
I'm waking up to You

I see You in the glow of summer nights
I feel You in the dance of ocean tides
And when the world is unaware
I am aware of You

I don't have to search hard to find You
I don't have to reach far to touch You
Standing in miracles wherever I go

I don't have to struggle to hear You
Your presence is easy to get to
Standing in miracles wherever I go

I'm walking on the hills of holy ground
You take me on the path with scenic routes
Your voice is upon the wind
And I am listening

I don't have to search hard to find You
I don't have to reach far to touch You
Standing in miracles wherever I go

I don't have to struggle to hear You
Your presence is easy to get to
Standing in miracles wherever I go

The baby in a mother's womb
The union of a bride and groom
Your presence filling up the room

The kindness of a stranger's smile
The sound of rivers running wild
The King of Heaven as a child

I'm standing in miracles
Standing in miracles
And everywhere I look, You're there
Everywhere I look, I find You

I don't have to search hard to find You
I don't have to reach far to touch You
Standing in miracles wherever I go

No, I don't have to struggle to hear You
Your presence is easy to get to
Standing in miracles wherever I go
