

# Eternal Machine

## Betraying the Martyrs

The cogs keep turning  
The earth keeps burning down  
They gotta fuel the war machine  
Crude oil and kerosene

A constant need  
A hate to feed  
In a world that's bleeding out  
Catastrophe  
Epanastrophe  
A never ending cycle  
An enterprise  
Built on lies  
An eternal industry  
For the wheels to turn  
The world must burn  
Burn it to the ground

Always wanting more and more  
Living the nightmare just to feed the dream  
Spoiling the wealthy, depriving the poor  
Make war to fuel the machine

Filthy production line  
Twisted destructive minds  
Does it get you off?  
Arm the troops, it's feeding time

Devour!

Supply to demand  
Create to destroy  
Feed the fucking machine  
Go!

Devour!

For the wheels to turn  
The world must burn  
Burn it to the ground

Always wanting more and more  
Living the nightmare just to feed the dream  
Spoiling the wealthy, depriving the poor  
Make war to fuel the machine

Filthy production line  
Twisted destructive minds  
Does it get you off?  
Arm the troops, it's feeding time

A thirst bloodshed  
The hungry man  
Ever eternal war machine

Unstoppable

Stop this train, let's derail the monster  
The iron prince, cannot cease to breathe  
Only flames, can ingite the fire  
Annihilating, the war machine
