

## The Swarm

### Betraying the Martyrs

They'll lead us blinded to the slaughter!

Social stature, a constant decline  
They march us to the bottom where we're butchered like swine  
How can we live like this? As nothing but pawns  
In their hunger games, shotgun blasts to the swarm

Hunger games, prepare for the storm!

We choke to stay alive  
Gasping for air, just to survive  
On the edge of our extinction  
When will they open their eyes?  
They starve, they crawl, they beg for mercy  
Gasping for air just to survive  
We choke, to stay alive  
When will they see we're all gonna die?

Leaders, resource eating swine  
Silver spoons and their fucked up minds  
Stop, read the warning signs  
We're out of time, out of time, out of time!

We choke, to stay alive  
Gasping for air, just to survive  
On the edge of our extinction  
When will they open their eyes?  
They starve, they crawl, they beg for mercy  
Gasping for air just to survive  
We choke, to stay alive  
When will they see we're all gonna die?

Stop, read the warning signs  
Stop, this cannot go on forever
