

GIRLS

Betta Lemme

I used to draw you in the notebook of my mind's eye
To make sure nobody could peek inside cuz I'm shy
I wrote myself a love letter to see if I'd cry
Turns out my mouth likes the soft kind

I like the way you wear Versace in the nighttime
And how your perfume takes "c'est la vie" to the dark side
Don't know if this is guilt or maybe just a phase, I
I know, you don't, but baby, let's try

Bang bang - through me
Got butterflies inside my
Chest - I can't breathe
Don't put this melody to rest
Now - in me
I like you cuz you look like
I like you cuz you look like

Girls girls think I'm in love with
Girls girls shit I'm in love with
Girls girls fuck I'm in love with
Girls girls mom I'm in love with
Girls girls think I'm in love with
Girls girls shit I'm in love with
Girls girls fuck I'm in love with
Mom I'm in love with

Girls girls think I'm in love with
Girls girls shit I'm in love with
Girls girls fuck I'm in love with
Girls girls mom I'm in love with
Girls girls think I'm in love with
Girls girls shit I'm in love with
Girls girls fuck I'm in love with
Mom I'm in love with

Now I know why all of these boys couldn't make me cry
Don't break my heart and tell me love is just a white lie
Why can't we just love who we love and have a good time
Maybe it's not that hard, so baby, let's try

Bang bang - through me
Got butterflies inside my
Chest - I can't breathe
Don't put this melody to rest
Now - in me
I like you cuz you look like
I like you cuz you look like

Girls girls think I'm in love with
Girls girls shit I'm in love with
