

# Everything Was Put Here For Me

Better Lovers

Do you believe this was destined to be?  
Do you believe you were destined?

From forgotten gods we're made  
Still we let ourselves get turned into slaves  
But I know with full certainty  
That everything was put here for me

Everything was put here for me  
(Everything was put here)  
Everything was put here for me  
(Everything was put here)  
Everything was put here for me  
Everything was put here for you  
Everything was put here for us  
For us

We won't be given what we wanted  
But surely given what we fuckin' need  
And now the only way we're headed is down  
But that's impossible for us to see

So impossible for us to see  
So impossible for us

No, we won't be given what we wanted  
Oh, but surely given what we fuckin' need  
And now the only way we're headed is down down down  
But that's impossible for us to see

And it won't be bright enough when you're trying to see  
And it won't be clear enough when you're trying to breathe  
And you won't be laughing when you're lying deceased

We're dying nobody cares  
We're dying nobody cares  
We're dead and nobody cares  
We're dead in our sleep

Do you believe this was destined to be?  
Do you believe you were destined to be?  
Everything was put here for me

We won't be given what we wanted  
But surely given what we fuckin' need  
And now the only way we're headed is down  
But that's impossible for us to see

So impossible for us to see  
So impossible for us to see  
So impossible for us to see  
To see

Pray for heaven above but it won't come down  
Pray for heaven above but it won't come down  
Pray for heaven above but it won't come down
