

## Astray

### Better Luck Next Time

Why feel so tempted to think everything's so  
Locked up in what I say? (Locked up in what I say?)  
Getting closer everyday (Getting closer everyday)  
'Til I find my way

As I search for better days  
Your voice has led me astray

Calling out to see  
Another side of me  
And everything I need

Finding out I'm getting used to  
Knowing what to say  
My weakness  
Won't kill me  
While you stay

As I search for better days  
I'll be alone  
As I reach for better days

Your voice has led me astray

Calling out to see  
Another side of me  
And everything I need

Are you gonna help me, or not?  
Alright, alright, alright! I'll tell you what to do  
Go that way, really fast  
If something gets in your way... turn  
What a coach

Calling out to see  
Another side of me  
And everything I need  
Your voice has led me astray  
Astray

Calling out to see  
Another side of me  
And everything I need, yeah

Calling out to see  
Another side of me  
And everything I need
